

Full Color Contour Cut Decals

## CUSTOMIZED DECALS/LABELS

Custom Digital Decals

Cut Vinyl Decals

Warning & Product Decals

Our customized labels and decals are available in a variety of shapes, sizes and finishes to fit your specific needs. From simple promotional decals to high quality equipment and manufacturing labels, Creative Color is your one stop shop for high quality stickers and decals.

### PROMOTIONAL

Promotional decals are a great way to advertise your business or brand. At Creative Color Inc. we can produce a cost effective solution to get your logo or advertisement out to the masses. All decals are laminated to protect from the elements and have a great adhesive that sticks to all "standard" surfaces. Decals are available die cut or as standard shapes giving you all the versatility you desire in your decal program.

### HIGH BOND

High-Bond labels are produced using a very aggressive permanent adhesive that sticks to low energy plastics, powder-painted, and textured surfaces. High bond is a perfect material for manufacturing equipment. Try partnering our Highbond Vinyl with our Textured over laminate for an impact resistant decal. This material is ideal for high-quality durable emblems or decals on motocross bikes, ATV's, cars, gasoline pumps, vending machines, ATMs, outdoor power equipment, and other interior and exterior markings.

### CUT VINYL

Cut vinyl decals (also called computer cut decals, vinyl graphics, die-cut vinyl, etc.) are produced when colored vinyl is cut to shape (lettering, logos or graphics) eliminating the need for printed inks or background material. We stand behind 3M high

performance vinyl but do carry other manufactures such as Avery, Arlon and Oracal vinyls. Available in hundreds of colors including metallic decals, candy color decals, pearl decals, matte decals. Cut vinyl decals create a professional, hand painted appearance perfect for a sign, product, window, automobile applications etc. Vinyl graphics are provided on pre-spaced and pre-masked sheet for easy application.

### CUSTOM SHAPE DECALS

We can do any decal logo to any shape needed on our full color digital press. From unique brewery logos, to any manufacture decals, product decals, equipment decals, car club decals - full color digitally printed and laminated with gloss or matte finishes to hold up short term or long term.

### REFLECTIVE

Reflective labels and decals are the only choice when safety cannot be compromised. Our reflective label and decal line will make sure that you are not only seen at night, but that you meet any state and federal regulations that you may be accountable for.

Don't forget that you can create a very unique decal as well! The reflective attributes that you gain when using these products can really help separate you from the pack.
